ALL ARGUS LENSES COLOR-CORRECTED

You Can Depend on the Argus C3 For Those "*Impossible*" Shots

● To exploit every picture-taking opportunity, regardless of general lighting, turn to the unfailing technique employed by news cameramen. Turn to synchronized flash, as made practicable at astonishingly low cost in the Argus C3 Camera. Indoors or out, night or day, in murky weather or bright, when there's no chance for re-takes, you can depend on this modern camera to see you through. Its built-in flash mechanism...perfectly synchronized with the accurate shutter...its fast, sharp lens . . . its coupled range finder will help you take consistently clear, fine pictures under the most difficult lighting conditions.
